

2014 ACCOMPLISHMENTS

DBP Data Center, Inc. has been continuously supporting DBP's Information Technology infrastructure for the past 32 years. In 2014, DCI continued to focus primarily on assisting the Bank's initiatives on various bank products by providing the workforce for the development and maintenance of the Bank's systems and applications. Further, DCI also started to seek opportunities to increase revenues by expanding its customer base to include government agencies and instrumentalities. This was made possible by the GPPB Resolution 12-2013, No. 3 amending Section 4(c) of the Implementing Guidelines on Agency-to-Agency Agreements (Guidelines) and deleting the second paragraph that excludes non-chartered GOCCs as Servicing Agencies.

Background

Aligned with DCI's strategic plan for 2014-2016, DCI pursues an aggressive business plan to deliver high-quality services, build an excellent team, and capture competitive market share in the industry.

Below are some of DCI's notable accomplishments in 2014.

- **DBP IT Staffing**

Among DCI's core competencies is identifying the right people suitable for augmenting the IT staffing needs of the Bank. As of December 31, 2014, DCI has a total of one hundred and twenty-five (125) strong workforce working closely with the Bank's IT requirements.

- **Non- DBP Opportunities**

The Company has started opportunities and negotiations on non-DBP projects focusing on government agencies and instrumentalities such as:

1. Maritime Industry Authority (MARINA) - DCI offers an outsourcing solution covering all the workflows, IT tools and manpower resources to answer requirements of ILO 185;
2. Philippine Port Authority (PPA) - provision of assistance to expedite upgrade of their current system;
3. National Kidney and Transplant Institute (NKTi) - enterprise-level Hospital Information System with interoperable administrative, clinical and research functionalities geared towards a government standards-compliant and technology adapting ecosystem of health information exchange;

4. Philippine Economic Zone Authority (PEZA) – The project involves the development of an Automated Building Permit System for easy assessment and recording of building permit for the different PEZA zones;
5. Philippine Health Insurance (Philhealth) – Phase 1 of the project involves consultancy services for the build-up of PhilHealth's Business Intelligence platform to analyze statistical data to create an Executive Dashboard;
6. LGUs – Comprehensive LGU System in collaboration with DBP's Branch Banking Sector; and,
7. LGUs – Hospital Information System for LGU Hospitals.
